

THE ECO-RANGER'S FIELD JOURNAL

Hi, this is the Eco-Ranger's Field Journal.

Get the latest on all our adventures and find out what you can do to help!

DEEP SEA XPEDITION LAUNCH

Hey Eco-Rangers!

We're headed out on a major mission and we need your help! A toxic barrel spill is threatening to pollute the ocean and endanger all the animals who live down there. Your mission is to dive down to the ocean floor and pick up the barrels before they start to leak gross toxic goo into the water. There are lots of them, so you're going to have to act fast!

Be careful down there - there are sharks and anglerfish with super sharp teeth, and they're hungry for a meal! Meet us on the aqua-barge so you can suit up and get your instructions!

That's all for now,
Chase

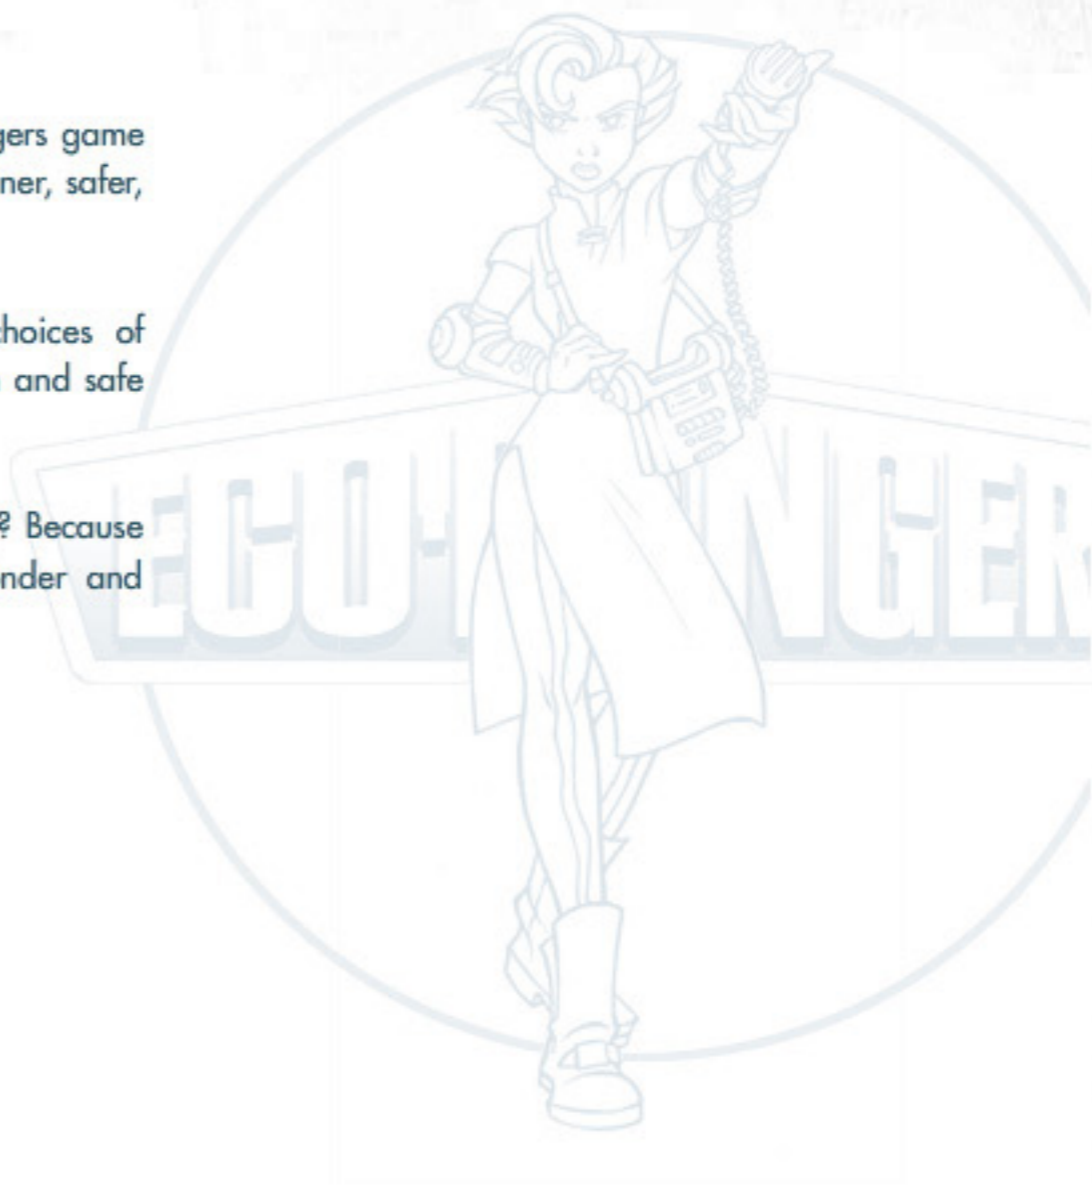

PARENTS

[OUR PROMISE](#) [OUR GAME](#) [SAFETY](#)

Congratulations! Your child wants to help save the planet and its animals! The Eco-Rangers game excites kids about environmental issues and teaches them how to make their world a cleaner, safer, and better place.

In today's world of online communities and gaming, we know there are many choices of entertainment for your child. We have taken great care with Eco-Rangers to create a fun and safe game for your kids to enjoy.

As moms and dads ourselves, we want our kids and your kids to be Eco-Rangers. Why? Because playing the Eco-Rangers game will help the next generation develop a sense of wonder and responsibility about the world and its habitats.

GAME CONCEPT

Planet Earth and its wildlife are in danger. The Eco-Rangers are a team of brilliant young scientists, adventurers and environmentalists, who have been assembled by Captain Hathaway, an eccentric billionaire. Their mission: To prevent environmental disasters before it's too late!

As an Eco-Ranger, your child will use technology, gadgets and vehicles sent by Hathaway to dart around the globe, decipher clues, and figure out exactly when, where and what will cause these ecological disasters.

As your child plays the Eco-Rangers game, he or she will learn that when you work together with others to help the Earth and its resources, you can make the world a better place and feel like a hero doing it.

SAFETY IS OUR PRIORITY

There is nothing more important to us than your child's safety and the Eco-Rangers game is designed with safety in mind.

COMMUNICATION

This is a promotional site with single player games that do not allow players to communicate with each other. In August we will launch Eco-Rangers Online, a multiplayer game with a comprehensive set of player safety systems aimed at preventing your child from giving out personal information or being exposed to inappropriate language or behavior.

INFORMATION COLLECTION

We will only use your child's email address to inform him or her about news and site updates. We will never pass on any information about your child to third parties or use it for marketing purposes. At anytime, you can remove your child's email and character account from our system by following the link in the email you received from us informing you that your child has created a character at Eco-Rangers.
