

Pietari Kaakkomäki has never been interested in what's trendy and now. Why? Because visionaries never are. They dream in color and paint with light. And they see and do things that others can't.

Pietari Kaakkomäki creates graphic designs, illustrations and visual identities that will be hot tomorrow and classics forever. He works for a colorful palette of clients ranging from fashionistas and music industry giants to museums and titans of business. And they all keep coming back for more...
